USC Diversity, Equity and Inclusion Week

MONDAY, MARCH 2

Diversity is a Number, Inclusion is a Feeling, Let’s Focus on Feeling!
Location: Taper Hall (THH 309 H)
Monday, March 2, 2020 | 9-11am | ★ ★ ● ▲
It is easy to determine if we are Diverse; demographic surveys provide percentages. Inclusion is much harder to achieve and should be 90% of our focus. What are we doing to make everyone feel included? Are we damaging our efforts when events discourage the participation of Students, Faculty, and/or Staff?

Eco-Justice and Quality of Life: the Impact of The Environment on Human Welfare
with Ruth White

Who would you help with $100,000? We’ll share strategies that the Financial Aid Office has used to increase access to transformative experiences such as study abroad programs and summer internships. Then, we’ll take suggestions on what to tackle next!

DEI Week Keynote and Luncheon:
Strengthening a Culture of Inclusion:
Aligning our Actions with our Vision
with Tanya Odom, Ed.M
Location: Scriptorium, University Club
Monday, March 2, 2020
11am –1pm (Lunch provided) | ★ ★ ● ▲
DEI Week Keynote and Luncheon
This session will focus on looking at Diversity, Equity, Inclusion and Belonging paying particular attention to our individual and community actions. We will hear about the “trends” in Diversity, Equity, and Inclusion globally, and learn more about the importance of “learning vs. difficult conversations.” We will think about how lenses and legacies have shaped our awareness and understanding of these topics, and how we can sharpen our skills to be more skillful allies to others.

★ After the session, please take the time to provide feedback at deiweek.usc.edu
★ Please RSVP – Reservations are strongly recommended but are not required for most sessions.
★ To access further DEI Week information, including RSVP links, go to the USC Events Calendar at calendar.usc.edu/

Understanding Implicit Bias
with Bryant Marks
Location: HSC Campus - Mayer Auditorium (1975 Zonal Avenue)
Tuesday March 3, 2020 | 6-8pm | ■ ★
Research has revealed that many Americans show a positive implicit bias toward White Americans vs. African Americans, young vs. old and fit vs. obese. Showing a preference for or against any particular group does not mean that a person is prejudiced or will discriminate, but it does suggest that s/he has been repeatedly exposed to certain associations between specific groups and specific traits/characteristics and have stored them in memory. These associations are often very strong and difficult to undue without deliberate effort or ongoing training. It is possible, however, to implement practices or policies that reduce the likelihood that implicitly biased beliefs will lead to biased behaviors. This training will introduce participants to the concept of implicit bias and what it looks like in the real world. Discussions will cover sources and causes of implicit bias, how it is measured, how it affects individuals and how it affects the attitudes and behaviors of the target group. Participants will then be given tools and strategies for considering how can implicit bias be reduced/managed at the individual and institutional levels.

Understanding Implicit Bias (2)
with Bryant Marks
Location: HSC Campus
Mckibben 149 (1333 San Pablo Avenue)

with Terence Fitzgerald
ONLINE: Zoom Room: https://zoom.us/j/5566438896
Thursday, March 4, 2020 | 11am-12pm PST | ■ ★ ●▲
In the face of current U.S. political differences, racial tension, religious and sexual marginalization, our society is witnessing an unfamiliar rigidity. The Beatles sang, “What We Need is Love.” Realistically, what we need is Cultural Humility. This session will focus on the dynamics of cultural humility and its application on/off of campus.

Implicit Bias and the Way Forward
with Jerry Kang
Location: The Saban Research Institute Auditorium,
4661 Sunset Blvd. Los Angeles, CA 90027
Wednesday, March 4, 2020 | 11:30am-1pm
Brunch served at 11:15am | ■ ★ ●▲
Recent findings in experimental social psychology have demonstrated the existence of “implicit biases”—attitudes and stereotypes that we are neither aware of nor necessarily endorse. Social scientists have also discovered “stereotype threat”—that negative stereotypes about us can undermine our performance even when we consciously reject those stereotypes as irrelevant or inaccurate. In this talk, Prof. Jerry Kang will survey the social science of implicit biases and stereotype threat with emphasis on real-world consequences within the firm in terms of hiring, training, performance, retention, and promotion. He will also briefly suggest some potential strategies that can counter these implicit social cognitions by altering individual motivation, changing institutional norms, and increasing structural accountability. The learning objectives include greater awareness of biases and threats, and how to counter them within our institutions.

The methodology has been used by thousands of practitioners across 120 countries.

Understanding Implicit Bias
with Bryant Marks
Location: USC Davidson Conference Center Vineyard Room
Wednesday March 4, 2020 | 4-6pm | ■ ★
Research has revealed that many Americans show a positive implicit bias toward White Americans vs. African Americans, young vs. old and fit vs. obese. Showing a preference for or against any particular group does not mean that a person is prejudiced or will discriminate, but it does suggest that s/he has been repeatedly exposed to certain associations between specific groups and specific traits/characteristics and have stored them in memory. These associations are often very strong and difficult to undue without deliberate effort or ongoing training. It is possible, however, to implement practices or policies that reduce the likelihood that implicitly biased beliefs will lead to biased behaviors. This training will introduce participants to the concept of implicit bias and what it looks like in the real world. Discussions will cover sources and causes of implicit bias, how it is measured, how it affects individuals and how it affects the attitudes and behaviors of the target group. Participants will then be given tools and strategies for considering how can implicit bias be reduced/managed at the individual and institutional levels. (repeat session)

How to Host Accessible Student Events
with Christine Street and Gwen Howard (USG)
Location: USC Credit Union Building (CUB) 329
Thursday, March 5, 2020 | 12-2pm
(Lunch provided) | ■ ★
Basic principles of equity and inclusion require that events are planned so that all students, no matter their diverse abilities, are able to attend. Yet, despite their best intentions, many student groups either do not think about accessibility in the planning process, or are not sure how to best approach the issue. Planning an accessible event is not that difficult, but it does require some planning, attention to detail, and understanding of how individuals with various disabilities interact with your events. Gwen Howard, USG’s Director of Accessibility Affairs and Christine Street, Associate Vice Provost for Institutional Accessibility, will offer practical guidance on how to ensure that your student events are accessible to all members of the Trojan Family. Though this session is designed for students, anyone interested in planning accessible campus events is welcome to attend. A light lunch will be served.

Meeting ID: 111 351 075
Friday, March 6, 2020 | 8-10am | ★ ● ▲
In a knowledge economy, the most important asset is people and education is the key to unlocking people's potential. However, for many, access to high-quality learning doesn't happen. To address this challenge, there has been a growing movement toward educational entrepreneurship and there have been many successes. However, despite human capital endeavors/careers having an over-representation of women and people of color, the vast majority of education entrepreneurs are white men. Join a panel of investors and entrepreneurs to discuss this issue and also learn what USC has been doing to address the gap.
